

## Parental Involvement Plan

Drew Central School District  
2010 - 2011

Drew Central School District recognizes that a child's education is a responsibility shared by the school and family all through the child's school career. We support the goal of the school being responsible for educating all students effectively with the school and parents working as knowledgeable partners. We also know that cultural diversity is important, and that parents with diverse cultures are an integral component of the school's ability to provide for the educational success of students. Consequently, the engagement of parents is essential to improve student achievement; therefore, Drew Central School District will foster and support parental involvement.

Parents of students of all grade levels will be included in a variety of comprehensive and coordinated activities that encourage active parental involvement. Recognizing that communication between home and school should be regular, two-way, and meaningful, **Drew Central School District will provide support to each building by:**

- A. Prepare family kits appropriate for the age and grade of the child that will include:
  - 1. The school's parental involvement program.
  - 2. The recommended role of the parent, student, teacher, and school.

- B. Schedule at least two parent teacher conferences per year, one each semester of the school year.
- C. Plan and engage in activities which will be beneficial in encouraging communication with parents while promoting responsible parenting.

To help parents assist students, Drew Central School District will include a "Parents Make the Difference" with their annual Public Meeting; where parents are given a report on the state of the school and an overview of curriculum, assessment, expectations of both parents and teachers, and how parents can assist and make a difference in his or her child's education..
