

Vision and Mission Statements

Vision Statement

Drew Central School District envisions a school community connected through the power of technology, with the tools and resources necessary to foster dynamic instruction in every classroom; where every student has access to a wide variety of hardware and software to engage in real-time and authentic learning; where teachers have access to and full use of existing and emerging technologies to facilitate student learning at a very high level; where parents can receive instant feedback on the student's progress and communicate freely with teachers and administrators to achieve a tight partnership in the best interest of each student.

Mission Statement

The technology mission of the Drew Central School District is to provide every student with access to technology that will assist each student to achieve optimal academic success in a nurturing and supportive environment where every child is valued as a member of the learning community and is offered appropriate academic, social and emotional support to reach his or her maximum potential.
